

WESTERLY MOTORISTS FIGHT FIRE

Summoned to Weekapaug to Check Dangerous Grass Blaze—Granite Worker Jammed Between Car and Wall—Postmaster Price in Washington on Department Business—President of Silk Company Seeks Site for New Building.

Among the many resolutions on file with the Rhode Island senate committee on finance is one making an appropriation of \$5000 for "deepening, widening and protecting the beachway extending from Quononotaug pond in the town of Charlestown to the ocean." After the severe storm of last Wednesday, in which the life saving crew at Quononotaug was baffled for several hours in an effort to launch a lifeboat to reach some barges in distress, persons who knew the conditions there claimed that if the beachway extending into the offing had been in good condition and the beachway opened for the passage of the boat there would have been little difficulty in launching the boat. They believe that the state should make the appropriation to improve the beachway.

The funeral of Anna Lanphere, who died as the result of a stroke of apoplexy, was held from his home in Pawcatuck Monday afternoon. Burial was in River End cemetery. Although Mr. Lanphere was not a member of the Grand Army of the Republic, he was enrolled as a member of Company M, Third Rhode Island cavalry, June 7, 1865, and on the 15th was mustered into the service. In February, 1865, he was appointed provost marshal at Pawcatuck, Conn., and was mustered out of the service Nov. 29, 1865.

Frank Sunnati, engaged in the manipulation of dump cars on the gravelled roadbeds at the plant of the New England Granite Works, was seriously injured while at work Monday morning. He removed the wheel block of a car, without regard to his personal safety, and was caught between the side of the moving car and a stone wall. He was pinned and rolled over and over for the length of the car, when he dropped unconscious.

Dr. Pagan was summoned and alleviated the suffering of Sunnati. The man was badly bruised, but neither the internal injuries nor of a nature that may prove fatal cannot be definitely ascertained for a day or two.

There was a bad grass fire at Noyes Neck that threatened the Weekapaug colony Monday morning. The people in the vicinity fought the fire and managed to keep it from the buildings. The flames spread rapidly, and automobile owners in Westerly proper were telephoned for assistance. A number of machines, bearing willing workers, were hurried to Weekapaug, and after several hours of hard work the fire was extinguished. The damage was

NOT a patent medicine

and body builder*
50 years
in use.

The president of the Westerly Silk company, with mill in Main street, the building owned by Eugene Atwood of Stonington, and soon to be vacated, is in Westerly looking up a site for a new mill building. He desires to retain the industry in Westerly, and has concluded that the present quarters are inadequate. If a suitable site can be had at a reasonable figure, with land sufficient for the mill building and also for permanent houses for the help, he may make the industry a permanent fixture in Westerly. A committee of the board of trade is rendering the president, Alfred Newberger of Paterson, N. J., all possible assistance in finding him about the town. Two sites are being considered, but as yet Mr. Newberger is undecided.

Local Laconics.

Willard F. Tucker of Carolina was a visitor Monday in Westerly.

At the morning service of the First Baptist church ten candidates were baptized by the pastor.

Dr. William H. Thompson of Brooklyn, N. Y., is visiting his father, Captain Alexander C. Thompson, in Westerly.

The engagement has been announced of Miss Grace B. Brown of Westerly and Chester D. Abbot of Andover, Mass.

Michael Keler, head porter at the Ponce de Leon hotel, St. Augustine, Fla., returned to Westerly Sunday.

with his assistants who are resident in Westerly.

Built as the name suggested for the new Browning house boat, and in honor of the president of the United States.

A letter was received Monday in Westerly, addressed in this style: "Please, Mr. Postman, take this straight to Cyrus Henry Brown; Little Henry is the state and Westerly is the town."

Four Italians arrested in Norwalk Sunday night for violation of the liquor law were arraigned before Judge Laddimer in Groton, Monday. Hearing was set for April 28. Bonds of \$50 each were furnished.

A number of Westerly members and their wives attended the big Knights of Columbus ball and reception in Providence Monday night. On the return trip the mail train made a stop at Westerly Tuesday morning for their accommodation.

A. J. Oher of Newport, who is engaged in making a rough survey of the Rhode Island section of the proposed inland waterway, has quarters at the Dixon House for a few days. His assistants are C. O. Abell of Taunton and Edward Parrish, Jr., of Saunderson.

The following names have been summoned as jurors from Westerly to the April term of the superior court: Thomas McKenna, Horace B. Pierce, Horace Greenman, James McCall, Abraham L. Olmsted, George W. Austin, Alfred A. Stillman, Isaac H. Harvey, William R. Briggs, Adam Archib, John H. Dougherty, George V. Hoxie, Nathan Perry and Nathan N. Barber.

PUTNAM.

Miss Florence Sargent of Boston is spending the vacation with her parents, Rev. and Mrs. F. D. Sargent.

Mrs. Armstrong of South Main street recently entertained her daughter, Mrs. Brown, of Providence.

Miss Susie Crane of Arlington, Mass., has been the guest of Mrs. F. E. Burdette, in Grove street.

Arthur Burnette of Charlestown, Mass., was the guest of his mother on Easter.

Mrs. Ella Clarke has returned from

HAD NOT ENJOYED A MEAL IN YEARS

Arkansas Farmer Follows Advice of Cooper; and Gains Fifteen Pounds in Few Weeks.

A. D. Henry, prominent farmer living on Rural Route No. 5, Jonesboro, Ark., in a statement given for publication, tells a story that makes interesting reading for persons who suffer from stomach trouble. Mr. Henry says:

"For six years I was a chronic sufferer from stomach trouble. In all that time I did not eat a meal to enjoy it. No matter what I ate it caused pain and distress. I lost my strength, I lost my sleep, and I was unable to do my work. I was completely run down, and derived no benefit from any medicine I took."

"One day while in town my druggist recommended Cooper's New Discovery. I had noticed several articles in the newspapers regarding this man Cooper's work in the larger cities, and I decided to give his medicine a trial. It effected a surprise. Before I had taken all of the first bottle I felt wonderfully improved. The pain and distress had left me, my appetite was good, my bowels were moving regu-

larly and naturally, and I began to sleep soundly at night. I continued the treatment, taking several more bottles, and in six weeks time I felt like a new man, fully restored to health and strength. I gained fifteen pounds while taking the Cooper medicine. I cannot say enough in praise of Cooper's New Discovery—it brought new life to me."

The theory of L. T. Cooper is based upon common-sense reasoning. When asked recently why his medicine is so successful, he replied: "My New Discovery is successful because it corrects the stomach. My theory is that few can be sick if the digestive apparatus is working properly. It naturally follows that few can be well with a poor digestion. I know from experience that most of the tired, half-sick people that are so common now-a-days have half-sick stomachs. Put the stomach in shape, and nature does the rest. The result is general good health. My medicine does this."

Cooper's New Discovery is a boon to stomach sufferers. It is sold by all druggists everywhere. A sample bottle will be sent free upon receipt of the coupon. The Cooper Medicine Company, Dayton, Ohio.

beautifully rendered. By special request Miss Bass recited The Lost Word, by Henry Van Dyke. Miss Bass was entertained by Mrs. F. W. Seward during her stay in Putnam.

Guests on Easter Day.

Miss Maude Simpson of Fremont street entertained on Easter Miss Helen of Washington and Miss Zoe Leigh of New York.

D. A. R. CHAPTER.

Hears Interesting Papers on Colonial Subjects.

An enjoyable meeting of Elizabeth Porter Putnam chapter, D. A. R., was held in the chapter room, in Farnet street, Monday afternoon, and was presided over by a meeting of the board. The report, Miss S. Elizabeth Clarke, presided. The reports of the various officers and committees were read and accepted. Mrs. Mary Medbury gave a very interesting report of the state meeting recently held in Bristol. The entertainment session was in charge of Mrs. C. D. Sharpe, a member of the entertainment committee.

An interesting paper was given by Mrs. G. W. Gilpatrick on Colonial and Revolutionary Periods. Miss Ellen Whelock's paper on The Revolutionary Portrait Painters—Conley, Stuart and Trumbull—was also most interesting. Miss Helen Alton rendered two vocal solos with much expression, for which she received hearty applause.

Dainty lunch was served by the hostesses, Mrs. G. W. Gilpatrick, Mrs. S. G. H. Gilpatrick and Miss Sargent.

SODA WATER STANDS.

Owners Must Comply With New Rule of Hartford Health Board.

The city health board of Hartford has taken up the crusade against the penny soda water stands on the east side that was instituted by the street board. The street board has decided to move in so far as lies in its power by ordering these stands to keep back from the street line, and not permit them to stand on the sidewalk or in the street. The health board has authorized its superintendent and food inspector to compel all proprietors of such stands to have their booths connected with running water. This practically means that these proprietors are forced to rent stores to carry on their business.

As much as a ton of oil has been obtained from the tongue of a single whale.

DR. King's Restoration Method

What It Does for Toothless People

By means of this wonderful method we are able to give back to a patient the full set of teeth he or she started in with in the beginning. All we require is two or more teeth in each jaw to work from, and we shall not resort to plates or ordinary bridge-work in the process of the work. Your mouth will be free from incumbrances.

Before we accomplish this result we put the gums and the natural teeth in a healthy condition, tightening the teeth which may be loose and curing pyorrhea if the patient is afflicted with that dreadful disease.

All of the teeth we supply are practical teeth; each set in its own pocket. Therefore, no pain, so that the strain is equally divided. One is able to bite on these teeth and use them in exactly the same manner as he would his natural teeth. They match nature's teeth so closely as to deceive experts. They are beautiful to look at and a source of constant delight to the one who wears them.

WE ARE GENERAL PRACTITIONERS

All Forms of Dentistry Treated by Experts.

While the Restoration Method is our great specialty—we are general dental practitioners as well. From the simplest filling to the most intricate piece of porcelain work, our experts are at the service of the public.

Naturally we would do such work well, much better than it could be done in a one-man office, for the operation is done by all the members of the very highest skill. They need to be to do the Restoration work. Beggars would not be tolerated in our office for a day, neither would dental students. We demand the finished craftsman, both at the operating chair and in the laboratory.

THOMAS JEFFERSON KING, D. D. S., Originator of Dr. King's Restoration Method for the natural restoration of teeth—originator of the King Safe System of Painless Dentistry, and Inventor of the "Natural Gum" Set of Teeth, Etc., Etc. All rights reserved.

A PAINLESS PROCESS

An impression has gone forth that there is some surgical operation connected with this method of restoring missing teeth. Some people have written in to know if we bore down into the bone and put the teeth in on pegs!

Others have said: "I see the new teeth into the sockets where the natural teeth were originally."

It is quite natural that some unthinking people would ask such questions, and in order that they may be fully answered we will state that there is no boring, no cutting, no implantation about this method, nothing about the work that is painful while it is being done or afterward.

Patients leave the office with these teeth in place and at once begin chewing meat, eating candy, toast, or anything else with the same comfort they would enjoy if every tooth in their head had grown there.

If we couldn't promise this and make good on the promise, the Restoration Method would not be a success. It would be no better than ordinary bridge-work or partial plates.
